

How Can We Help?

We want your feedback! Please take our [3-minute survey on how RARC can help you better!](#)

RARC Services

Services

Does your lab need someone to help out with research procedures? Don't want to deal with a DEA registration for post-operative analgesics? RARC is now offering:

- Long-lasting analgesia for rats and mice ([More...](#))
- Technical services for your rodent colonies ([More...](#))

Specialized Training

Did you know that the RARC trainers offer specialized training classes? These individualized classes include:

- Small animal stereotaxic surgery
- Small animal perfusion
- Aseptic techniques

More information can be found on the [RARC Training page](#) of our website.

Grant-Protocol Compliance

Did you receive a fundable score on your NIH grant? Congratulations! After you receive the notice from your Grants Management Specialist at NIH or NSF that you will be funded, you must request a grant-protocol congruence assessment from RARC. [More...](#)

Website Updates

PI Portal

Have you ever wished there was one place where you could manage ALL of your compliance training, research protocols, and easily find information without visiting multiple campus websites? If you answered YES, then the PI Portal is for you! Information about animal protocols, biosafety protocols, training courses, and submission deadlines are available through the PI portal with a single click. Visit <https://research.wisc.edu/researchers/pi-portal/> now to learn more and to start using the Portal.

United Control Systems Culture

Updated Controlled Substance Guidance

The controlled substance information page on the RARC website has been updated to reflect the most recent guidance from the Drug Enforcement Administration. [More...](#)

ARROW Tips

Copying a Protocol

If you want to create a new animal use protocol that has the same procedures, agents, personnel, or other components as an existing one, copying the protocol can help save you time. Read how to do this on our [ARROW Tips and FAQ page](#).

Don't Discard that Mouse!

When could that DEAD MOUSE you just found be the most valuable mouse in your colony? Click [here](#) for your answer!

RARC Updates

AAALAC

The College of Agricultural and Life Sciences (CALs) has been recommended for **full continued accreditation** by the AAALAC, International site visit team that visited in October. **Congratulations CALs!**
