RARC Rodent Quarantine Coordinator
quarantine@ahw.wisc.edu
Genome Editing and Animal Models (GEAM)
animalmodels@biotech.wisc.edu

For additional information:
RARC Transfers, Import/Export Specialist
transfers@ahw.wisc.edu

BRMS SPF Mouse Breeding Core & Research Services
https://brms.wisc.edu/breeding-core/

EXCLUDED PATHOGENS, if detected:
- Any costs related to required treatment, testing/re-testing and/or associated with rederivation are incurred by Primary Investigator (PI)
- Euthanasia may be required
- Depending on pathogen detected, final housing location may be changed to accommodate pathogen status (SPF Level 2 vs SPF Level 3)

If free of excluded pathogens, with Veterinary approval, rodents will be released to designated SPF Level 2 or 3 Facility

Quarantine location, policies and costs are college/facility dependent, if housing outside SMPH please contact your facility veterinarian for details.

Campus facilities designated as SPF Level 2 or 3 facilities may require quarantine of imported rodents prior to housing

RARC RODENT QUARANTINE @ BRMS (Biomedical Research Model Services)
- RARC Veterinary staff will submit samples for testing
- Time in quarantine ~ 2-3 weeks
- BRMS husbandry in aseptic Innovative caging and fed irradiated diet
LAB IS RESPONSIBLE FOR ALL HOUSING PER DIEMS AND TESTING FEES
Testing fee = Approx. $130 to $175/panel (up to 12 rodents pooled/panel)

All campus SPF Level 1 facilities, including the BRMS SPF Mouse Breeding Core, require rederivation of imported rodents prior to housing

Contact GEAM for rederivation consult at animalmodels@biotech.wisc.edu PRIOR to submitting your import request

GEAM-REDERIVATION CORE
Lab is responsible for cost of rederivation.
Quarantine testing of imported rodents may be required prior to obtaining rederivation services.

To initiate your Import, submit online at https://ahw.wisc.edu/ select Create Import Request
After review by Research Animal Resources & Compliance (RARC) Veterinarian, imports may be approved into quarantine and/or rederivation

Investigators should first contact their School’s assigned RARC Veterinarian and review RARC Transfers website

February 2022

Obtaining Rodents from Outside Institutions and other Non-Approved Vendor Sources

Campus facilities designated as SPF Level 2 or 3 facilities may require quarantine of imported rodents prior to housing
